Judo Life Skills - Summary

1. Judo is a way to experiment on how to handle the challenges of life
2. Everyone wears the same uniform is judged by the same standards
3. Accomplishments take lots of practice, requiring failure to succeed
4. Using a cooperative approach toward common goals is a good plan
5. Appreciate the journey as often it’s as important as the destination
6. Self-esteem results from self-confidence (embarrassment immune)
7. Essence of competition is more about challenging yourself to grow
8. Life is learning which is gained through experience, it’s a constant
9. While winning or losing are outcomes, learning will occur regardless
10. Luck is the ability to recognize opportunity and take advantage of it
“It is not the critic who counts, not the one who points out how the strong man stumbled or how the doer of deeds might have done better. The credit belongs to the man who is actually in the arena, whose face is marred with sweat and dust and blood; who strives valiantly; who errs and comes short again and again; who knows the great enthusiasms, the great devotions, and spends himself in a worthy cause; who, if he wins, knows the triumph of high achievement; and who, if he fails, at least fails while daring greatly, so that his place shall never be with those cold and timid souls who know neither victory or defeat.”
The *Jules* Rules:
